UPDATES

GMUN Meeting – January 24, 2008
New DOD F&A Cap (35% TDC)

• UM mostly unaffected (our 51% MTDC rate equates to lower than 35% TDC)
  – Use full rate in proposals for us and for subrecipients
  – Could impact new contracts eligible for 62% F&A

• May impact some subawards
  – MTDC rate must be 53.8% or less

• Cap applies to new awards or new/renewal proposals awarded after 11/14/07 funded from DOD FY 08 funds in 6.1 category

• Continuation awards are not impacted
NIH: Deadline Extension for Peer Reviewers

• Appointed Reviewers on established study sections only
• R01, R21 and R34 unsolicited applications on which they are a PI
• Continuous submission (submit whenever application is ready)
• NIH reviews their application within 120 days
NIH: Publications must be added to PubMed

• **Applies to:**
  – Peer-reviewed articles accepted for publication 4/7/08 or later
  – Funded in part or in total by direct costs on NIH grants
  – Institution AND PI are responsible for ensuring any copyright agreements they enter into comply with this policy

• **New Requirement for Proposals and Progress Reports**
  – Must cite the “PMC or NIH Manuscript Submission Reference number” when referencing their publications
  – Effective 5/25/08
NIH: New Salary Cap

• $191,300 as of January 1, 2008 (increase from $186,600 in CY2007)

• May rebudget to pay this amount if funds are available and institutional base salary still exceeds the cap

• Pending new/renewal awards will be adjusted automatically by NIH if competing proposal properly reflected higher institutional base salary
NIH: Updated Forms

• PHS 398 (required beginning 5/25/08):

• PHS 2271 (5/1/08), 3734, HHS 568

• PHS 2590 (required beginning 3/1/08)
  • Working on EGMS to make these changes
  • Only original (no copies) will be required by NIH
  • Lots of face page changes (e.g. FFATA, ClinicalTrials.Gov registration)
